

41773 – Residential land of 350 sqm offers rice field view for sale in Kediri, Tabanan

Description

This plot presents a wonderful chance to create either a main residence or a second home, such as a villa, while you enjoy your time in Bali. The plot is strategically located in Central Tabanan, nestled within a local residential complex, and is just a 5-minute drive from the city center. Features 350 sqm of land with a flat contour, nearly rectangular dimensions, and a well-provided, approximately 5-meter-wide concrete access road located about 70 meters from the main road. Surrounded by verdant rice fields, this place embodies the authentic Balinese village atmosphere, complemented by stunning views of tropical greenery and majestic mountains. With its panoramic views of Bali's clear blue skies and lush landscapes, this location is the ideal retreat for those looking to escape the everyday hustle and find tranquility. This feature is sought after by developers, as it offers the perfect blend of business potential and a calming escape in Bali. With its peaceful atmosphere and refreshing breezes, this location is ideal for anyone looking to invest in a residential complex in Bali. Additionally, this area has adequate amenities and infrastructure, ensuring that there are no obstacles for future construction.
