

27456 – A cozy modern minimalist house for sale in Terrace of Udayana University, Jimbaran, Bali

Description

A cozy house with modern architecture for freehold sale, located in a prime location of Southern Kuta, Bali. This semi villa house offers a beautiful tropics ambiance for a relaxing living in the Island of the Gods like no others. Secluded and tranquil private residence villa featuring private pool, perched on a ridge of land at Jimbaran, Bali. Known as Bali's Golden Mile, Jimbaran is home to the island's most spectacular beaches, exclusive and prestigious five star hotels, resort and luxury rental villas. The semi villa house is easy 20 minutes drive from the Bali International Airport and Bali's world class golf courses at Nusa Dua, is at terrace of the Udayana University. Designed as two-storey building with balcony on the second floor, the house is fully self contained, configured with 3 bedrooms with 2 bathrooms, kitchen and fully furnished. The design concept accommodates privacy, modern, comfort, and style. Built on land of 126 sqm with building size is 250 sqm in north orientation. Completed with 2,200watt electricity power and deep drilled water source, a carport, and complete legal certificates of Freehold/SHM and Building Permit/IMB.

Comes with natural and pleasant interior and exterior, completed with nice decorations and setting that brings out the homey ambiance. The mix of wooden and bricks material make it a cozy place for living in the tropical island.
