

17748 – Stunning villa in a delightful area of Kayu Tulang, Canggu

Description

Brand new villa modern minimalis concept for sale, located in South Kayu Tulang, Canggu, Badung Regency – Bali.

It is two storey building with an outdoor swimming pool and it's direct access from the main bedroom with glass sliding door.

We can directly jump into the pool after bed, what a delight and fun it is.

On the second floor we can see the beautiful view of locals daily life and also there's a mini garden alongside the bedrooms.

This villa is suitable for regular private use or as second home in Bali or perhaps for commercial business.

The location of this villa is strategically away from hustle and a calm place to stay where we can get the serenity atmosphere.

However it is very closed to central Canggu, only five minutes drive away. As known that is a famous touristy place after Seminyak which has great beaches and restaurants. Canggu is where everyone wants to live these days, it's hip, beautiful, interesting, and still relatively cheap. There are many expats staying there for long time.
